

FALL 2023: CS 4435/5435 and DASE 4435 Data Mining

Reading Assignment 1, Due on September 26, 2023

For this assignment, each student should study the assigned reading assignment and prepare a 1-page summary and a 7-page slide, including the title, containing the core ideas presented in the article.

Find the assigned article for each student here: [Assigned Article](#)

The slides will be presented on either **September 28th or October 3rd**, depending on each student's assigned date. Please do not miss your allotted day and time, as there will be no make-up for missed presentation.

Each student gets **5 minutes maximum for presentation.**

The slides should answer these questions:

- 1) *What are the key takeaways presented in the article?*
- 2) *Under which topic from our class note/lecture does your article fall and how do the points in the article relate to what has been taught in class?*
- 3) *Identify a single piece of new information that you learned from the paper.*

Note: The 1-page summary and your draft 7-page slide are both due for Sept. 26th
